PROFILE

Artificial Intelligence graduate from the University of Jeddah with hands-on experience across AI automation, data analysis, machine learning, and computer vision. Currently an AI Specialist building AI products and intelligent workflows that reduce manual effort and accelerate decision-making, with a track record of delivering AI solutions end to end.

EXPERIENCE

AI Specialist | BTC Networks *Jan 2026 – Present*

- Build and deploy end-to-end AI solutions for the company that simplify daily operations and reduce manual workload across departments.
- **AI-Powered Applicant Tracking System:** Built an LLM-powered ATS for CV screening and contextual candidate ranking. Supports AI job drafting, a searchable CV bank and hiring pipelines. A bilingual AI assistant helps HR search, summarise and compare candidates, explaining fit, strengths and gaps while keeping hiring decisions with HR.
- **BTC Website & Bilingual AI Chatbot** btc.com.sa
  Developed and enhanced the website and bilingual chatbot for service, branch and career inquiries.
  Refined the system prompt to improve answer relevance and clarity while reducing token usage.
- **TeccManage Website & AI Chatbot** teccmanage.com
  Developed the website, Payload CMS and an AI chatbot using company services and website content.
  Improved chatbot performance and response consistency through prompt and AI system engineering.
- **Employee Engagement Automation:** Built automated workflows that welcome new hires and celebrate employees' work anniversaries, removing manual follow-up for HR.

Cybersecurity Presales | BTC Networks *Jun 2025 – Dec 2025*

- Built interactive Power BI and Excel dashboards tracking sales pipeline and proposal status, and automated recurring reporting workflows to cut reporting turnaround time.
- Prepared technical and financial proposals for cybersecurity solutions in partnership with sales and technical teams.

Data Analyst — Internship | Baytonia.com *Mar 2025 – Apr 2025*

- Collected and merged large-scale datasets from Facebook, Google, Snapchat, and TikTok ad platforms.
- Performed deep cleaning and standardization to produce a unified, analysis-ready dataset.
- Analyzed digital marketing performance and delivered insights supporting campaign optimization.

EDUCATION

Bachelor of Artificial Intelligence | University of Jeddah *Aug 2020 – Feb 2025*
Excellent

TECHNICAL SKILLS

AI & Machine Learning: Machine Learning, Deep Learning, Computer Vision, NLP, LLMs & Prompt Engineering, RAG & Vector Databases, AI Agents

AI Frameworks & Tools: TensorFlow, PyTorch, Scikit-learn, LangChain, n8n, AI Workflow Automation

Data & Visualization: Power BI, Excel, Python, SQL, Dashboard Design & Reporting

Soft Skills: Critical Thinking, Time Management, Project Planning, Communication

PROJECTS

Smile Scan — Automating Dental X-Ray Diagnosis with AI | *Graduation Project*

- Developed an AI solution automating panoramic dental X-ray analysis to deliver accurate diagnoses and personalized treatment plans.
- Applied deep learning (YOLOv8, CNNs), Roboflow annotation, and LLM prompt engineering for treatment recommendations.

News Automation - AI Daily Brief

Built a Python workflow that collects news from eight RSS feeds, filters duplicates and uses an LLM to select relevant stories and generate Arabic summaries, plus a weekly AI projects and products roundup. Automated email delivery with GitHub Actions and Gmail SMTP, with send tracking to prevent repeats. Tools: Python, OpenAI API, RSS, Trafilatura, GitHub Actions, Gmail SMTP.

CERTIFICATES

- Certified Artificial Intelligence Engineer (CAIE) — United States Artificial Intelligence Institute (USAII)
- Microsoft Certified: Power BI Data Analyst Associate (PL-300) — Microsoft, Dec 2025
- Data Analyst in Power BI — DataCamp
- Data Science & Machine Learning — Microsoft Student Club, EELU
- Data Visualization and Reporting with Power BI — Google Developer Student Clubs
